Pedestrians are reporting a number of violations relating to bicycle riders and the obligations imposed upon them by legislative enactment. It is claimed that apace with the two-wheeler's return to favor had grown a disposition to ignore the rights of other travelers on the street. Only yesterday afternoon a small child started to dart across North Main street in front of the Howland black. A cyclist was approaching, but his coming was not heralded by any bell or whistle such as should be attached to every pair of handle bars. The wheel struck the child and threw her to the paving, but an examination failed to disclose any injuries. It was a narrow escape for the young one.

Fredio Rulfo of Pleasant street, a clock employed in the Lamorey clothing store, is nursing a painfully injured nose which he narrowly escaped fracturing this forenoon. With a number of companions, Mr. Rulfo was essaying the old circus stunt of jumping the broom with either end of the handle firmly grasped in a fist. Several times the young man tried the trick with poor success. On the fifth occasion he determined to retain his clench on the handle regardless of results. He kept his hold, but fell heavily to the floor when his heels caught on the broom. He struck on his nose and lay as though stunned for more than a minute. Afterwards he had a doctor treat his nose for a bad swelling. On account of its swollen condition, the physician couldn't tell whether the bridge of the member had been fractured.
